Dear Mr. Prock:

RE: Notice of Termination (NOT) of Coverage Under the Industrial
Stormwater Baseline General Permit

Permit Number: S03-000908

Facility/Site Name: Alaska Marine Lines, Inc.
Address: 7100 2nd Ave. S.W.
Seattle, WA 98124-3757

The Washington Department of Ecology has reviewed your Notice of Termination (NOT) of coverage under the Industrial Stormwater Baseline General Permit for the subject facility. Based upon a phone call from Sue Heather, of Alaska Marine Lines on September 28, 1994, we are terminating your coverage under the permit as of September 26, 1995, the date we received the NOT, for the following reason(s):

The site has been vacated. No significant materials or equipment remain which are exposed to stormwater.

You must retain the Stormwater Pollution Prevention Plan (SWPPP) and copies of all notices of intent, reports on inspections, spill reports, and all other reports required by this permit for at least five years from the date of the report or submission. You shall make them available upon request to Ecology and to the owner and operator of the municipal storm sewer system through which the stormwater may have discharged.
